

At Ogden Communications Co., our goal is to give each of our customers the fastest service possible. We are always striving to develop programs and policies that help make that possible. Our Fair Access Policy is designed to impact the fewest customers while helping ensure the best speeds for the vast majority of our customers.

Ogden Communications Company (Ogden) estimates that a small percentage of customers accounts for a disproportionate share of data usage on the Ogden network. To ensure that all Ogden customers have equitable access to the Ogden network, Ogden has implemented a Fair Access Policy (or “FAP”). Ogden sets usage thresholds on the amount of data you can upload and download within stated time periods. If you exceed these thresholds, Ogden will temporarily limit the speed at which you can send and receive data over the Ogden access network. You will still be able to use the Ogden Internet access service but your speed will be slower. In cases of extreme and continued violation of the FAP limitations, your service may be suspended. Ogden may use other traffic management and prioritization tools to help ensure equitable access to the Ogden network for all customers. Your Ogden Internet access is not guaranteed and is subject to this FAP.

Based on an analysis of typical customers, we have set a rolling 30-day limit on data usage per customer, called a Usage Threshold. As shown in the table below, this threshold varies based on the service plan you selected. For each service plan, the Usage Thresholds are significantly above the amount of data that is used by a typical customer. Every day, we measure your upload and download data usage (“Actual Usage”) to determine if your total Actual Usage, as aggregated over the previous 30 days (“Usage Total”), exceeds the Usage Threshold for the service plan that you selected. At any time, you can see your Usage Total versus your monthly Usage Threshold.

We will notify you via your Ogden contact e-mail address if your Usage Total reaches 80% or more of the Usage Threshold. If at any time your Usage Total is above the Usage Threshold, we will reduce your Ogden access speeds, typically to 128 kbps in the downstream (from the Internet to you) and 28 kbps in the upstream (from you to the Internet) until your Usage Total is 80% or less than the Usage Threshold. Once your Usage Total reaches this level, your access speeds will be restored to the original speed levels by the next day.

You are likely to avoid any limitations imposed by the FAP if your use is typical of the majority of Internet users and consist primarily of web surfing and a reasonable amount of downloading. The table below shows the monthly Usage Thresholds for each plan. These limits specify the amount of data that you can upload and download before your access speed is reduced. Please note that your Usage Total is far more likely to exceed the Usage Thresholds below if you use peer-to-peer file sharing programs, you use a webcam, or you download full length movies, large quantities of music files, full software applications, or similar high-bandwidth activities.

	Ogden FAP Monthly Usage Thresholds		
	Bronze	Silver	Gold
Upload Threshold (MB) ¹	2,300	3,000	Future Use
Download Threshold (MB) ²	7,500	12,000	Future Use

1. Upload Threshold is the volume of data that can be uploaded during the previous 30 days before the Fair Access Policy may restrict the user’s speeds.

2. Download Threshold is the volume of data that can be downloaded during the previous 30 days before the Fair Access Policy may restrict the user’s speeds.

These terms and conditions state important requirements regarding your use of Ogden Internet service and your relationship with Ogden. You should read them carefully as they contain important information regarding your rights and ours. If you do not agree to these terms and conditions, you may not use the service and, subject to the terms of your Customer Agreement, you must terminate your service immediately.

Ogden may revise this Fair Access Policy from time to time without notice by posting a new version of this document on ogdentel.com, ogdentel.net, or any successor URL(s). All revised copies of this Policy are effective immediately upon posting. Accordingly, customers and users of the Ogden’s Internet service should regularly visit these web sites. Questions regarding this FAP and complaints of violations of it by Ogden customers and users can be directed to Ogden via “Contact Us” e-mail obtainable at ogdentel.com.
